We are sure that in its pages you will find memories which we have tried to capture in order that both now and later you might enjoy them.

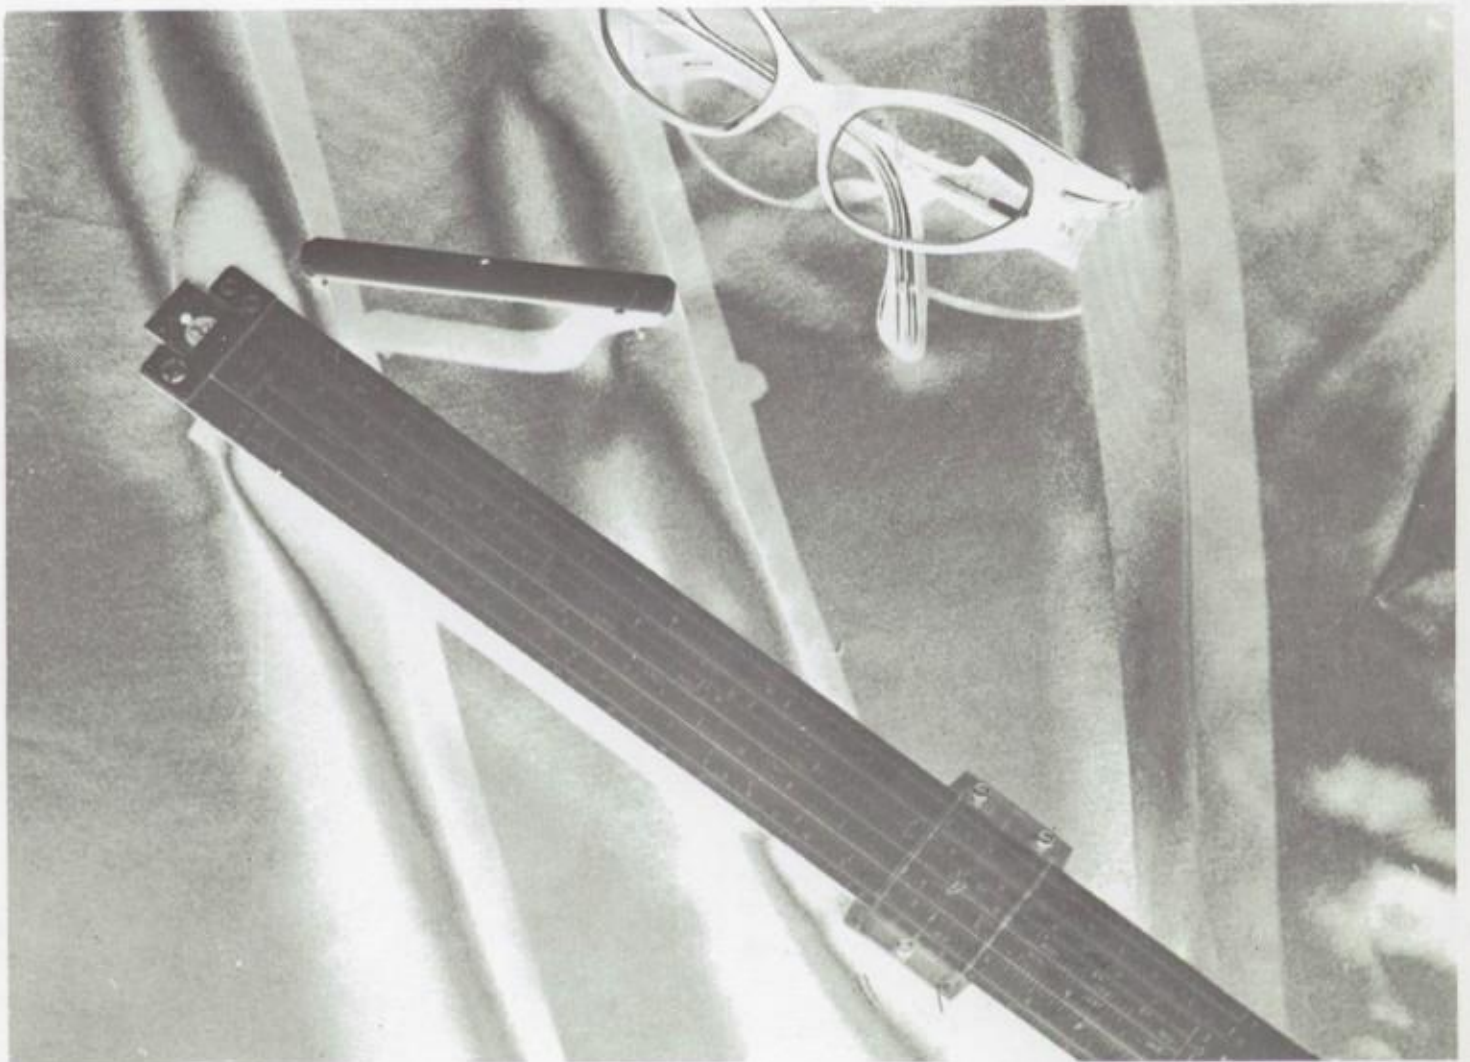

We thank all who have had a part in making this publication possible with special regard to our patient and able advisor, Miss Lawrence. We owe much to her leadership, encouragement and inspiration.

Administration

Congratulations to the class of 1965!

It has been your privilege to attend a free school in a free society. The citizens of your community, including your parents, have given of their time and money to make your schooling possible. The time has come when many of you are going to take your place in the community. The nation and community of 1985 will be what high school graduates of today make. It is my hope and prayer that the years you have spent attending Farmington School have given you a foundation on which to build a successful adult life.

With your parents, your teachers, I hope you find the best that God has in His plans for each of you.

L.C. Watkins

We have a responsibility, now more than ever before, of safeguarding and of maintaining for posterity the liberties bequeathed to us by the founders of our great republic. Each of us must dedicate himself to this great task if our form of government is to survive.

John H. Elwell

The Senior Class of 1965 would like to express their deepest thanks for the kindness and consideration The Board of Education has given us.

The Board of Education spends many hours making decisions to make the school run efficiently. They meet once a month and also for special meetings that are called.

This year's board members include: President, Mildred Woodford, Vice President, Carl Gerlt, George Ward, John Anthony, and William Onea.

Senior Prophecy

The year is 1985, Monday, May 21. I awoke with a terrible toothache and decided it was now or never to make that dreadful trip to the dentist. Wearily I dressed and drove to the dentist's office. My dentist's office is in the suburb of Warren, Ohio--Farmington Heights. I pulled into his parking lot and noticed the sign, "T. L. LAWRENCE, D.D.S." I Walked up the sidewalk and into the office and was greeted with a cheerful "Good morning," from MISS HOFFMAN, Tom's secretary. As I reached the waiting room I noticed a familiar face. It was none other than PEG CORSON. She is married now and had her twins Keith and Kevin at the dentist's for their checkup. We chatted for awhile and then I was called into the room.

The painful ordeal being over, I decided to go shopping for the day. Downtown there was a journalists' convention going on. I recognized two faces. They came my way. I found out it was MARSHA GLAY who is Assistant Editor of the leading New York newspaper as well as a wife and mother. CHARLES GERLT who is an editor of a leading Florida Science Magazine is also a professor of technology. I left them to finish shopping.

I noticed my gas gauge was getting low. I saw a gas station ahead and pulled in. The sign on the garage read, "Morrow's Gas Station, Inc." Well, what do you know! RICHARD owns a chain of gas stations and is a very good mechanic.

When I went to the doctor to pick up my vitamin pills, I was greeted by the nurse, BARBARA KLOUDA. She told me her son is doing fine in school and he just adores his teacher, MISS JANEY SCHLACHT.

I left the doctor's office and headed for the store. On my way I passed Kenneth's Beauty Salon. KENNY BIER owns a hair styling salon and is famous the world over for his creations.

The Department Store was very crowded. But that wasn't unusual when the famous model LILLIAN RAMEY was modeling creations designed by the world's greatest designer, ANN HALEY. The sales manager, JANICE GEHO, stopped me for a cup of coffee in the coffee shop. The music on the radio was interrupted by a news bulletin announcing that GENERAL GEORGE BROWN WARD, JR. and GENERAL RONALD E. JONES have just returned from their galaxy tour. They have set the record of being the first men through the galaxy. In his speech, General Ward said that he owed his success to his efficient secretary, MAUREEN GREENE. The space ship was built and designed by DOUG MOLDEN.

Just as I was about to leave the Coffee Shop I saw ELAINE SHERY sitting across the room. She told me that she and her family have been very busy this last month getting her race car ready for the Indianapolis 500. We talked awhile and then went on our way.

I had to pick up some pictures that were being developed at Housel's Studios. ALICE MAY has done very well in her chosen profession. She had many pictures of WANDA WILLRICH, star of stage and screen, and currently playing an engagement with the Kenley Players in Warren.

At the news stand I paused a moment to talk to a neighbor who was on her way to see her psychiatrist, RADALON RAE STAFFORD. After my chat I glanced at the headlines of the local paper to find that the millionaire playboy DONALD (BUNKER) HILL had just become engaged for the 20th time. I blinked my eyes and who should appear but DAVE SVOBODA followed by ten blonde-headed children. His wife was having a terrible time keeping them under control. They sure do take after their father.

Passing by the National Art Exhibit I noticed the name of the highly honored artist, LINDA LIPPERT. My she certainly has come far. Finally I arrived back at my car. On my way home I passed the golf course. I noticed that the great golf pro NORMAN KUBILIS was favored in the tournament.

I am rather happy that I did wake up with a toothache because I was able to see the CLASS OF '65. The class did not die with graduation; it merely faded into the glow of the past.
